Agricultural Cooperative Problem

Learning and Action Plan

Dairy
Cooperative

Rice
Cooperative

Banking
Insurance
Lending

Transportation/
Logistics
SSF

Coconut
Cooperative

Women's
Cooperative

Expected Outcome

1

- Able to support assistance to small/micro agriculture-based cooperative

2

- Farmers will not be troubled anymore where and how to market their produce

3

- Help farmers/members to be trained technically, enable them to use the materials more efficiently

4

- Give proper guidance to every cooperative in the region going to more sustainable food value chain system

Expected Outcome (cont..)

5

- Technical know-how on different applicable crops and intercropping system

6

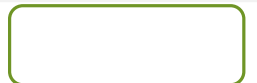

- Ensure and protect the quality/ safety of the products

7

- Create an integrated state of the art trading center / one -stop business hub that customers will buy directly fresh from the farm

8

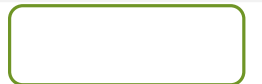

- Collaboration of government institutions for any programs/ services needed

Time Frame :
= 3-5 years

- Proper training and workshops, providing & purchasing of necessary equipment
- Stabilization of policy and implementation

Thank You
