**EXPECTED OUTCOME**

# I. CURRENT SITUATION

## Characteristics

- Co-operative are on the voluntary basis of the members, and property rights of the members are recognized.
- This new co-operative is quite different from the old co-operative model that was compulsory

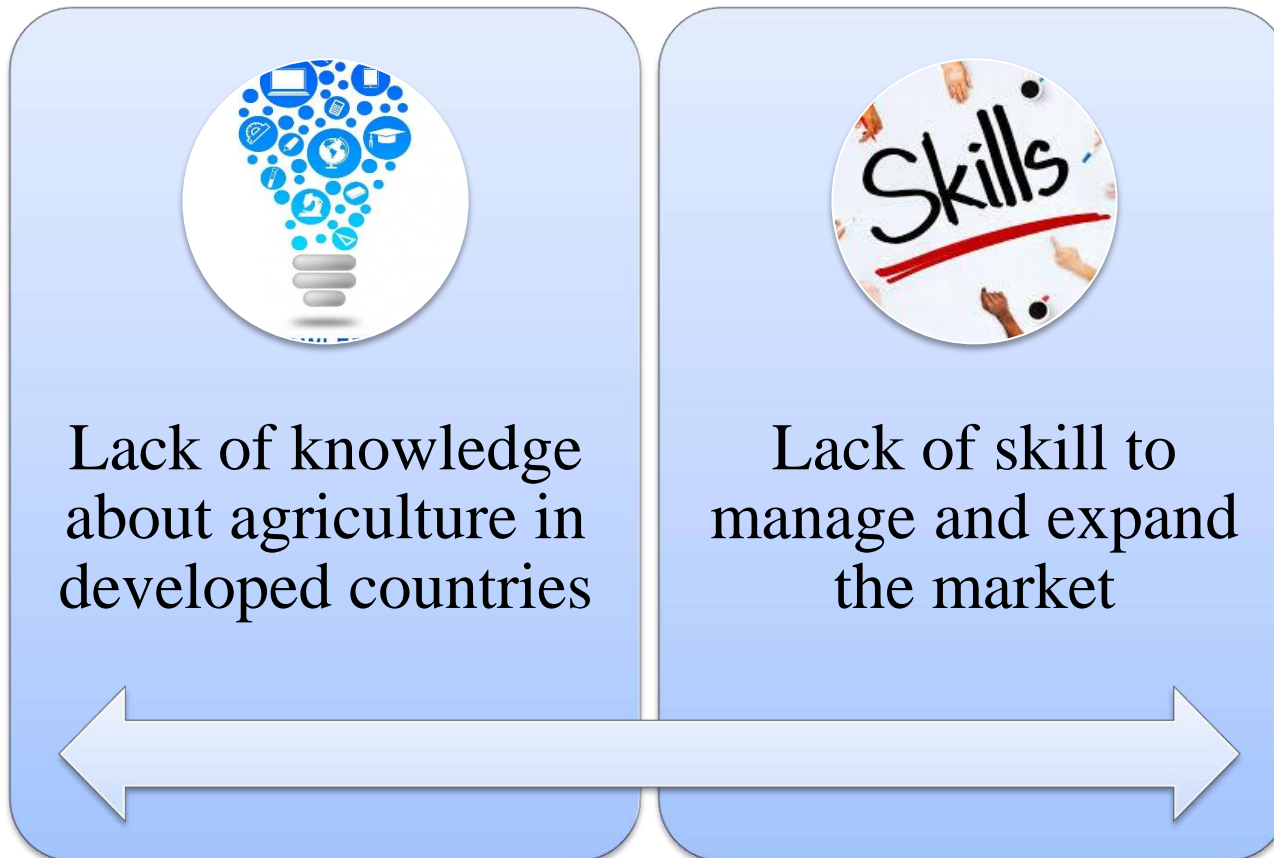

=> It almost stopped when Vietnam started its economic reforms in 1986 (Doi moi)

# I. CURRENT SITUATION

- New type of co-operative: The head of co-operative is usually a person who contributes the most.

## Problem

# I. CURRENT SITUATION

## II. SOLUTION

 We have to improve the knowledge of the heads of co-operative and the farmers

**Workshops:** Inviting the heads of the cooperative and the farmers

**New Program:** They have field trips to observe the co-operative model of developed countries

# III. EXPECTED OUTCOME

They can improve:

Management skills

Good knowledge about the agricultural sector of developed countries.

=> Improving productivity in co-operatives
